Full Stack Developer
The Special Character

12/2023 - 01/2024   *Ahmedabad , Gujarat*

Achievements/Tasks

- Led a six-person team in the design and development of a fully functional e-commerce website specializing in pet items.
- Utilized technologies such as Next.js, HTML5, CSS3, and Tailwind CSS to create a user-friendly and responsive platform.
- Employed GitHub for version control and effective collaboration within the team.
- Spearheaded collaborative problem-solving efforts, resulting in winning the first prize in a website development competition during the internship.
- Acquired valuable experience in teamwork, communication, and Full Stack Development, contributing to the success of the project.

CERTIFICATES

SSIP Hackathon (10/2022)
I served as a frontend developer for the "Krushiadhaar" project, where I contributed significantly to developing frontend pages. My responsibilities included crafting PowerPoint presentations and project reports. I utilized HTML and CSS technologies extensively to design and execute various project elements.

SSIP Hackathon (11/2023)
Engaged as a UI designer for the "GiftConnect" project, I concentrated on refining the website's user interface to elevate both user experience and visual allure. My pivotal role involved leveraging Figma extensively to craft intricate UI designs. Additionally, I contributed to developing PowerPoint presentations and project reports, effectively demonstrating the project's advancements and achievements.
