💼 PROFESSIONAL EXPERIENCE

Full-Stack Developer
The Special Character ⎘
2023/12 – 2024/01 | Ahmedabad
- Led a six-person team to develop an e-commerce website for pet items using Next.js and Tailwind CSS.
- Created a user-friendly, responsive platform.
- Won first prize in a website development competition.
- Improved my full stack development and communication abilities.
- Ensured a successful and functional website.

📁 PROJECTS

Bhitchitram ⎘
a wallpaper website
2024
- Developed and manage a website for custom wallpapers created by me.
- Provide free browsing and downloading options for all users.
- Built with Next.js and Integrated Cloudinary API for image storage and fetching.

Movieflix ⎘
a movie searching site
2024
- Developed a react application for searching and retrieving movie details.
- Provided users with access to movie posters, titles, release years, and types through a responsive and interactive interface.
- Built with React and integrated the OMDB API for fetching movie data.

GiftConnect
SSIP Hackathon 2023
- Engaged as a UI designer for the "GiftConnect" project.
- Focused on refining the website's user interface.
- Leveraged Figma extensively to craft intricate UI designs.
- Contributed to developing PowerPoint presentations and project reports.

KrushiAadhar
SSIP Hackathon 2022
- Served as a frontend developer for the "Krushiaadhar" project.
- Contributed significantly to developing frontend pages.
- Utilized HTML and CSS technologies extensively.
